Every Woman.

Paine's Celery Compound

Cures a Lady Who Was Told That Her Life Depended Upon a Surgical Operation.

The greatest misfortune of the present generation is that wives and mothers are so frequently unfitted for the duties of life and domestic enjoyment by reason of broken-down health and overtaxed systems. The duties of women of all ages are really more worrying and wearing than the troubles met with by men. Social, household and often business cares press upon women very heavily. In this way the delicate nerves and sensitive organs become de-ranged, suffering ensues and life becomes a burden that many carry to the grave.

For the special weaknesses to which women so often fall victims medical science has provided Paine's Celery Compound. This famed medicine has specific powers for correcting the disorders of the female organism; it maintains health, gives strength, vivacity and good looks, and imparts to the body the elasticity of girlhood. No other medicine can so quickly banish and permanently cure painful and obdurate feminine ills, Mrs. L. S. Long, of Flint, Mich., says:

"For twenty-five years I have been a great sufferer from Insomnia, never obtaining more than four nights' sleep in a week For sixteen years life has been a burden to me, because of prolapsus uteri, whose tortures no words can describe, and from which no physician gave me any hopes of relief, except by an operation. I have also for years been troubled with rheumatism to such an extent in my right shoulder as

"Last February I was induced to try Paine's Celery Compound in hopes that relief from insomnia and rheumatism might be obtained. After using three bottles of the Compound the rheumatism was better, I could sleep like a child, and, strangest of all, my uterine trouble was cured,"

GROOVED RAILS MAY BE USED ON TRANSIT COMPANY'S LINES.

Save Wear on Street Paving and Cost No More Than Pattern Now in Service.

When the St. Louis Transit Company is compelled to lay in a new stock of rails, it obably will adopt the new grooved surface rail now in use in the East, in Detroit, and which is being introduced in Chicago John Grant, general superintendent of the Transit Company, said yesterday that this new style of rail has many advantages in saving wear and tear on street paving and

The idea involved is an elimination of the uneven surface which the rails now in use present. The existing depression is wide ough to admit the wheels of heavy wagons. The weight of the latter is borne on the projecting ledge of the rail, where the burden should not fall, and tends to gradually force the rail out of place. Also wide wheel tires reach from the rail ledge to the abutting street paving and injure this. Another frequent result of the old-style rail is a rut between the paving on the inner and outer edges of the rall, which necessitates a severe jolt whenever a wagon or carriage crosses at right angles. The grooved rail carries the flange of the street car wheels in a depression a little on the inside of the center. Such a rail is now in use on the Eighteenth street bridge and one somewhat similar is used at curves. The weight, as before, is carried on the elevated or "T" portion, which is constructed on a level with the street paving-The groove is larger than is necessary to fit the flange, but so small that only the wheels of a runabout or light buggy can

Weak Lungs

Inherited, perhaps. Natural tendency to take cold. Possibly a case or two of consumption in the family. Then don't neglect your coughs and colds. Heal your throat and strengthen your lungs with Ayer's Cherry Pectoral. Ask your doctor if he can give you better advice.

"We have had Ayer's Cherry Pectoral in our family for many years. For throat and lung troubles it always helps."-Frank Rogers, Greenwood, Wis.
